LAWTON'S DRY FOAM PLUS has been scientifically formulated to overcome heavy soiling problems found in commercial and institutional facilities in the carpet care maintenance process.

DIRECTIONS

DIRECTIONS: For daily carpet care, vacuum routinely and remove spots with LAWTON'S STAIN X. Test carpet for colorfastness and effect on texture on an inconspicuous area before cleaning.

Dry Foam Equipment: Shampoo in rows overlapping slightly with each pass. Release only enough foam to produce a light lather. Wet vacuum up excess foam. Rake carpet to lift pile. Allow to dry, then vacuum.

Rotary Shampooing: With a single disk floor machine, shampoo the carpet using a circular motion. Take care not to over-wet. Wet vacuum up excess foam. Rake carpet to lift pile. Allow to thoroughly dry, then vacuum.

Carpet Restoration: Periodically, it will be necessary to deep extract the carpet using LAWTON'S STEAM TRAFFIC LANE pre-spray and LAWTON'S STEAM VAC CONCENTRATE. Use as directed.
