

ENZYME DRAIN TREATMENT

Enz-O-MaticTM

LIQUID LIVE BACTERIA • ENZYMES
FOR MAINTENANCE OF
DRAINS • GREASE TRAPS
SEPTIC TANKS

PRODUCT SPECIFICATION BULLETIN

THE FINEST IN JANITORIAL PRODUCTS, SUPPLIES AND EQUIPMENT SINCE 1946

Product No. 2818

PRODUCT DESCRIPTION

Date prepared: 6/2007

Enz-O-Matic is a blend of aerobic and anaerobic beneficial bacteria and enzymes designed to liquify organic solids within drain lines and grease traps such as fats, protein, carbohydrates, starches, grease, soap scum and natural foods. By decomposing this residue, drains become free-flowing, foul odors disappear and pipes are restored to their original diameter allowing the full capacity of the drain to be utilized. Safe on plumbing and septic systems.

DIRECTIONS

Shake well before using.

DRAINS: Follow treatment with 1 pint of warm water. Apply during period of lowest flow. Treat the lowest levels of a system first to prevent blockage by materials released from higher levels. For example: Treat the drain closest to the grease trap first and in progression daily treat the next closest drain. Do not use in conjunction with chlorine bleach, disinfectants or other drain cleaning products as they will make the product ineffective.

GREASE TRAPS: Add a minimum of 1 pint per 25 cubic feet of capacity, directly into the trap. Repeat weekly until odor is gone and mat is reduced then reduce charge rate to 6 ounces weekly.

SEPTIC TANKS: For institutional use, treat tank with 1/2 pint weekly for every 12 people using the system.

Other Areas of Application: Floor drains, garbage disposals, lavatory or food sinks, mop sinks, refrigerator drains, urinals and more: Charge weekly with 3-6 ounces followed by 1 pint of warm water.

CAUTIONS

CAUTION: Do not swallow. If swallowed, get medical help immediately. Do not get in eyes. If eyes are contacted by product, rinse thoroughly with cool water. If cleaning by hand for an extended period, it is recommended to wear rubber gloves to protect skin from irritation. KEEP OUT OF REACH OF CHILDREN.

CUIDADO: Este producto no es para beber. Si se traga, busque asistencia médica inmediatamente. Evite contacto con los ojos. Si hace contacto con sus ojos, enjuáguelos con agua fresca. Si limpia a mano, es recomendado que use guantes de goma para proteger su piel contra la irritación. SIEMPRE MANTENGA ESTE PRODUCTO FUERA DEL ALCANCE DE LOS NIÑOS.

PROTECTIVE EQUIPMENT

It is recommended to wear protective gloves and protective eyewear when using this or any chemical cleaning product. When spray applying, ventilation and breathing protection is recommended.

TECHNICAL DATA

Active ingredients	Contains 2 strains of live bacillus spores.
Color and appearance	Light amber-white opaque liquid.
Odor	Citrus.
Viscosity	Semi-viscous liquid.
pH	7.0 ± .5 @ 25°C.
Specific Gravity	1.020 @ 25°C.
Weight per gallon	8.48 lbs. per gallon.
Biodegradable (organic components)	Yes.
Phosphorus content	None.
Detergent type	NA.
Foam height	NA.
V.O.C. (Volatile Organic Content)	None.
Flash point & method used	Nonflammable.
Shelf life (stored properly)	> 1 year.
