PRODUCT DESCRIPTION

Date revised 9/2004

LAWTON'S INTERIM is a unique carpet bonnet cleaner containing soil retardant, optical brighteners and carpet fresheners. INTERIM works quickly to emulsify soil, breaking it down and through capillary action, lifts the soil to the surface for easy removal. The soil retardant prevents any soil left behind from rebonding to the carpet fiber, so it can be easily vacuumed away.

DAILY CARPET CARE: Vacuum routinely and spot clean with LAWTON'S STAIN-X.

DIRECTIONS

DIRECTIONS: Vacuum carpet thoroughly. Test carpet for colorfastness and affects on texture on an inconspicuous area before cleaning. Dilute INTERIM concentrate with water. Using a pump-up sprayer, spray the area to be cleaned then wait 5 to 10 minutes. Moisten your carpet bonnet then move machine over the sprayed carpet in a circular motion. Clean bonnet frequently. Rake carpet to lift pile. Allow to thoroughly dry then vacuum.

DILUTIONS:

Light Cleaning: Dilute 8 ounces of concentrate per gallon of water.
Normal Maintenance Cleaning: Dilute 16 ounces of concentrate per gallon of water.
Heavy Soil: Dilute 32 ounces of concentrate per gallon of water.
