THE FINEST IN JANITORIAL PRODUCTS, SUPPLIES AND EQUIPMENT SINCE 1946

Product No. 281

PRODUCT DESCRIPTION

Date prepared: 12/05

LAWTON'S K9 is a scientific blend of Bacteria/Enzymes designed to eliminate odors due to pet and human urine and feces contamination. K9 does not mask the odors with heavy perfumes, but biologically eliminates the odor by digesting the contamination that causes the odor, so the odor does not return.

DIRECTIONS

DIRECTIONS: Shake well prior to diluting.

1. Clean area of excess soil.
2. Dilute 1 gallon of K-9 concentrate with 4 gallons of luke warm tap water.
3. Apply diluted K-9 liberally to contaminated area. If pet has frequented the area for a long time, it may be necessary to apply multiple treatments. Cover treated area with a damp cloth to prevent K-9 from drying, giving it time to fully digest all the soil (may take up to 48 hours). In order for K-9 to fully eliminate the odor, it must come into contact with all the contaminated areas for sufficient time to fully digest all the contamination.

Application of K-9 to large areas, dilute K-9 as directed above and apply using a rotary shampoo machine or an extractor with the vacuum turned off.

NOTE: Do not use K-9 undiluted, or with hot water, bleach, detergents, deodorizers or disinfectants. K-9 may give off an ammonia odor as it is working. K-9 may be ineffective on aged cat urine.

CAUTIONS

CAUTION: Do not swallow. If swallowed, get medical help immediately. Do not get in eyes. If eyes are contacted by product, rinse thoroughly with cool water. If cleaning by hand for an extended period, it is recommended to wear rubber gloves to protect skin from irritation. **KEEP OUT OF REACH OF CHILDREN.**

CUIDADO: Este producto no es para beber. Si se traga, busque asistencia médica inmediatamente. Evite contacto con los ojos. Si hace contacto con sus ojos, enjuáguelos con agua fresca. Si limpia a mano, es recomendado que use guantes de goma para proteger su piel contra la irritación. **SIEMPRE MANTENGA ESTE PRODUCTO FUERA DEL ALCANCE DE LOS NIÑOS.**

PROTECTIVE EQUIPMENT

It is recommended to wear protective gloves and protective eyewear when using this or any chemical cleaning product. When spray applying, ventilation and breathing protection is recommended.

TECHNICAL DATA

Active ingredients Contains 2 strains of live bacillus spores.
Color and appearance Light amber liquid.
Odor Citrus.
Viscosity Semi-viscous liquid.
pH 7.0 ± .5 @ 25°C.
Specific Gravity 1.020 @ 25°C.
Weight per gallon 8.48 lbs. per gallon.
Biodegradable (organic components) Yes.
Phosphorus content None.
Detergent type NA.
Foam height NA.
V.O.C. (Volatile Organic Content) None.
Flash point & method used Nonflammable.
Shelf life (stored properly) 2 years.
