Product No. 574

**PRODUCT DESCRIPTION**

Date prepared 9/2004

**LAWTON'S RINSE AID** is a concentrated liquid machine dish-wash additive. It is designed to be used in conjunction with LAWTON'S CRYSTAL LIQUID machine dish-wash detergent during normal high temperature cleaning operations. This cleaning system yields optimum soil removal where some low temperature cleaning systems fail to cut oily or greasy soils. RINSE AID is designed to be added to the final rinse during automatic machine dishwashing operations by rinse injector. RINSE AID reduces water surface tension so that instead of staying on silverware and glassware in droplets it sheets off without water spotting.

**DIRECTIONS**

RINSE AID is to be used in conjunction with a rinse injector pre-set to deliver the proper amount of product.

**SET RINSE INJECTOR** to deliver 5 milliliters (1/6 fluid ounce) of concentrate to the final rinse for single tray automatic dishwashing machines.

**CAUTIONS**

**DANGER:** Combustible liquid or vapor. Keep away from sparks or open flames. Do not swallow. May cause irritation to skin. Causes eye damage. Wear safety glasses or goggles and rubber gloves when handling product. Wash after handling. Avoid breathing spray mist or concentrated vapor. Keep out of reach of children.

**FIRST AID:** IF CONTACT WITH EYES: Rinse with cool water for 15 minutes. Get immediate medical help. IF SWALLOWED: Do not induce vomiting. Call a physician or poison control center immediately. IF CONTACT WITH SKIN: Wash with soap and water. If irritation persists, get medical attention.

**PELIGRO:** Vapor o líquido inflamable. Manténgalo alejado de chispas o llamas. Este producto no es para beber. Puede causar irritación en la piel. Causa daño en los ojos. Utilice lentes o gafas de seguridad y guantes de goma cuando maneje este producto. Lávese las manos después de usarlo. Evite respirar los vapores o rocío cuando lo esté aplicando. Manténgalo alejado del alcance de los niños.

**PRIMEROS AUXILIOS:** SI ENTRO EN CONTACTO CON LOS OJOS: Enjuague con agua fría por 15 minutos. Busque asistencia médica de inmediato. SI LO INGERIO: Tome leche de magnesia o antiácido de carbonato de calcio con agua. No induzca el vómito. Llame a su médico o centro de control de envenenamientos de inmediato. SI ENTRO EN CONTACTO CON LA PIEL: Inmediatamente lávese con jabón y agua. Lave cuidadosamente por debajo de las uñas. Aplíquese una solución líquida anti ácida. Si la irritación continua busque asistencia medica.

**HAZARDOUS INGREDIENTS:**

Isopropyl Alcohol..... CAS No. 67-63-0

**PROTECTIVE EQUIPMENT**

It is recommended to wear protective gloves and protective eyewear when using this or any chemical cleaning product.

**TECHNICAL DATA**

Total active ingredients .....	77.00% by wt.
Nonvolatile matter .....	59.00% by wt.
Color and appearance .....	Light blue liquid.
Odor .....	Alcohol odor.
Viscosity .....	Medium to thin liquid.
pH .....	8.0 ± .5 @ 25°C.
Specific Gravity .....	0.964 @ 25°C.
Weight per gallon .....	8.0 lbs. per gallon.
Biodegradable (organic components) .....	Yes.
Phosphorus content .....	None.
Detergent type .....	Nonionic.
Foam height .....	Low.
V.O.C. (Volatile Organic Content) .....	18% by wt.
Flash point & method used .....	Combustible.
Shelf life (stored properly) .....	2 years.
