

FLOOR POLISHING COMPOUND

SNAPTM

5X EXTRA MARBLE POLISHING POWDER

PRODUCT SPECIFICATION BULLETIN

THE FINEST IN JANITORIAL PRODUCTS, SUPPLIES AND EQUIPMENT SINCE 1946

Product No. .216359

PRODUCT DESCRIPTION

Date: 4/2011

LAWTON'S SNAP is a blend of high quality Italian polishing materials. The solid form of this powder is the most popular polishing media used in Italian marble factories. Commonly referred to as "5X Powder", **SNAP** is a very effective way to polish all Marble, Limestone, Terrazzo and other calcium containing stone. **SNAP** is also a great polishing method for properly honed concrete.

DIRECTIONS

DIRECTIONS:

1. Clean surface to ensure that it is totally free of dirt, wax coatings and other sealers. Use periodic intensive cleaner to remove dirt and light wax film.
2. Protect all acid sensitive surfaces that adjoin the intended work area.
3. Lightly wet a 3' x 5' work area and surrounding areas using a sprayer or damp mop.
4. Sprinkle 1 to 2 tablespoons of **SNAP** in a pile in the center of the work area and add enough water to form a slurry (buttermilk consistency).
5. Using a natural fiber buffing pad and a 175-300 rpm floor machine, place the front side of the pad on top of the polishing compound. Work the slurry over the area several times very slowly moving the machine in an overlapping crisscross pattern.
6. When desired results are achieved, flood the area with water using the machine solution tank and vacuum the flooded solution.
7. Immediately after vacuuming, rinse the area with liberal amounts of clean water and vacuum dry.
8. Proceed to the next 3' x 5' area. Repeat steps 1-7, completing the job checkerboard style.

COVERAGE: 200 to 300 sq. feet per pound.

Test a small area prior to general application to determine amounts and appearance.

CAUTIONS

CAUTION: Do not swallow. If swallowed, get medical help immediately. Do not get in eyes. If eyes are contacted by product, rinse thoroughly with cool water. If cleaning by hand, it is recommended to wear rubber gloves to protect skin from irritation. **KEEP OUT OF REACH OF CHILDREN.**

FIRST AID: SKIN OR EYES: If contacted, rinse completely with cool water. If irritation persists, get medical help. **IF SWALLOWED:** Do not induce vomiting. Get immediate medical help.

CUIDADO: Este producto no es para beber. Si se traga, busque asistencia médica inmediatamente. Evite contacto con los ojos. Si hace contacto con sus ojos, enjuáguelos con agua fresca. Si limpia a mano, es recomendado que use guantes de goma para proteger su piel contra la irritación. **SIEMPRE MANTENGA ESTE PRODUCTO FUERA DEL ALCANCE DE LOS NIÑOS.**

HAZARDOUS INGREDIENTS:

Monopotassium oxalate CAS No. 127-95-7

PROTECTIVE EQUIPMENT

It is recommended to wear protective gloves and protective eyewear when using this or any chemical cleaning product.

TECHNICAL DATA

Total active ingredients 100.00% by wt.
Nonvolatile matter 100.00% by wt.
Color and appearance Light amber granular solid.
Odor Mild to odorless.
Viscosity NA.
pH Water solution approximate pH 2.5 to 3.0 .
Specific Gravity 2.0 ± .5.
Biodegradable (organic components) NA.
Phosphorus content None.
Detergent type NA.
Foam height NA.
VOC (Volatile Organic Content) NA.
Flash point & method used Nonflammable.
Shelf life (stored properly) 2 years.
